# PURPOSE

## Z-COMPANY STARTED IN 2012 WITH ONE MISSION.

Together with our growers, producers and value chain partners we want to eat our way to a more wholesome food culture and lifestyle. This means working with plant-based and natural ingredients, which are not chemically produced and over-processed, nor have lost nutritional qualities and connection to the harvested soil.

Therefore, we have created a two-folded business based on hemp manufacturing and natural food ingredients distribution with the continuous aim of sourcing our raw material from local farmers and producers as possible to strengthen quality, transparency and market prices. Our aim is hereby about benefiting the well-being among farmers and end consumers alike, and our own environmental footprint with climate-friendly raw material.
