z-company

Natural. Plant-based. Wholesome.

WHY

Z-COMPANY

- ① We serve as your one-stop shop wholesale partner for premium quality natural, plant-based and nutritious food ingredients, covering small as big volumes
- ① We offer competitive prices and personal customer service at your fingertips
- ① We produce high-quality hemp products in our own facility
- ① We offer 100% organic assortment and several conventional products
- ① We know trends and developments in the European ingredients market like no other
- ① We are based in the heart of Europe's import/export food hub in the Netherlands

PURPOSE

Z-COMPANY STARTED IN 2012 WITH ONE MISSION.

Together with our growers, producers and value chain partners we want to eat our way to a more wholesome food culture and lifestyle. This means, that we only work with nutritious plant-based and natural ingredients, which are not chemically produced or over-processed. Z-Company is the important link between our farmers, cooperatives and producers and the rest of the consumer markets. Our role, relations and responsibility require a continuous farm to fork approach to ensure a fair distribution of financial, environmental and nutritional value for farmers and end-consumers alike. Working with plant-based ingredients is part of our mission to promote climate-friendly raw material in line with planetary boundaries and to contribute to improved social well-being and life quality through nutritious products.

Therefore, we have created a two-folded business based on hemp manufacturing and natural food ingredient distribution with the continuous aim of sourcing as much of our raw material as possible directly from local farmers, cooperatives and producers to strengthen quality, transparency and market prices.
