z·company

Natural. Plant-based. Wholesome.

WHY

choose Z-Company as your partner for plant-based proteins

- ④ We manufacture both organic and conventional hemp, sunflower and pumpkin protein powders
- ④ 6 years of production experience, quality control and flavor screening
- ④ We are one of Europe's leading and largest production outlets plant-based proteins
- ④ We offer competitive prices and flexible volumes
- ④ We offer export services to both EU and international consumer markets through Rotterdam port

PROTEIN POWDERS

Almond protein 50%, raw
Rice protein 80%
Hemp protein powder 50%, raw
Pea protein powder 80%
Pumpkin protein 65%, raw
Sunflower protein powder 53%, raw
Whey protein powder 80%

ALMOND

Almond protein 50%, raw

ALMOND

ALMOND PROTEIN

Almonds were originally grown in the Middle East. Today, California is the largest producer of almonds in the world. The name “Almond” is believed to be a grouping of extractions from both the French word “almande” and the Greek word “amydala.” The amygdala – the part of the brain that controls the ability to make decisions, develop memories, and process emotions – is also believed to have the same etymology. Known as the “King of Nuts,” the Almond, as well as the oil it yields, are both believed to improve the role of this part of the brain.

Almond protein 50%, Raw

Almond protein powder is a natural powder with a protein content of 50%. It is obtained by mechanical pressing of blanched almonds. Partially, fat that is used to produce almond oil and carbohydrates is separated. At the end, the mass is still dried and drained. Almond protein contains 15-20 % fibers, vitamins, minerals, calcium beside the mentioned high-quality protein. We offer 100% organic and conventional almond protein.

PRUNUS DULCIS

Country of origin: EU

Ingredients: Certified organic almond protein powder

Botanical name: Prunus dulcis

Form: Fine smooth powder - white/beige color

Flavour: Mild with light almond odor

Harvesting season: August-september

Key features and benefits

- Certified organic, gluten-free, grain-free, vegan, non-gmo, natural
- A vegetarian source of protein
- A source of fiber, vitamins, minerals, iron and calcium
- No added flavors, additives, sweeteners, stabilizers, oils or coatings

DRINKS

Almond protein powder is an excellent plant-based, grain-free option. Almond protein can be used as an ingredient in bakery or as a protein supplement in bars and shakes. Almond has a mild and smooth neutral taste, so it blends in perfectly with other ingredients.

RICE

Rice protein 80%

RICE

RICE PROTEIN

Archaeological discoveries have found primitive rice seeds dating back about 8,000 years in China, Arab traders introduced rice into ancient Greece, and Alexander the Great (356-323 B.C.) brought it to India. The Moors brought rice to Spain in the eighth century, and the Spanish introduced it into South America in the 17th century. Brown rice is an unrefined and unpolished whole grain which is produced by removing the surrounding hull of the rice kernel. Its grain retains its nutrient-dense bran and germ layer.

Rice protein 80%

Rice Protein is a concentrate of organic rice. Rice protein is the concentrated fraction of the whole rice grain which is produced through a wet milling process. It is produced by various steps of fermentation, filtration and enzymatic processes to remove the protein and fibre from the rice. Rice protein powder is with 80% protein content. Rice protein powder is a popular replacement for animal based whey protein powder. Our products are 100% natural and delivered as both organic and conventional.

ORYZA SATIVA

Country of origin: China

Ingredients: Certified organic rice protein powder

Botanical name: Oryza sativa

Form: Fine light yellow powder

Flavour: Mild nutty flavour

Harvesting season: September-October

Key features and benefits

- Certified organic, gluten-free, vegan, non-gmo, natural
- Hypo-allergenic
- A plant source of amino acids
- Rich in fibre, contains b-vitamins, folic acid, iron, selenium and magnesium
- No added flavors, additives, sweeteners, stabilizers, oils or coatings

Rice protein has a mild characteristic and neutral taste, so it blends in perfectly with other ingredients. Rice protein powder is a popular replacement for animal-based whey protein powder.

HEMP

Hemp protein powder 50%, raw

HEMP

HEMP PROTEIN

Hemp is one of the earliest domesticated plants known to man. Its use dates back to the Neolithic Age in China. There are many varieties of the cannabis plant. Hemp, also called 'Industrial Hemp', refers to the non-psychoactive (less than 1% THC) variety of *Cannabis sativa* L. 'Industrial Hemp' for food consumption is strictly controlled by regulations: THC < 0,2% in Europe, THC < 0,3% in Canada. *Cannabis Sativa* L. is the only variety of hemp authorized.

Hemp protein powder 50%, Raw

Hemp protein powder is a RAW natural protein powder with a protein content of 50%. Hemp protein powder has a slightly nutty taste. In comparison to other types of protein, hemp protein is really tasty. The hemp protein powder is produced with a low temperature for the whole production process to produce best results. Our products are 100% natural and delivered as both organic and conventional.

CANNABIS SATIVA L.

Country of origin: France, Estonia, Canada, Romania and China

Ingredients: Certified organic hemp protein powder

Botanical name: *Cannabis sativa* L.

Form: Powder

Flavour: Nutty flavour

Harvesting season: All year

Key features and benefits

- Certified organic, gluten-free, kosher, vegan, non-gmo, natural
- A vegetarian source of omega 3
- A source of calcium, phosphorus, magnesium, potassium and fiber
- No added flavors, additives, sweeteners, stabilizers, oils or coatings

DRINKS

Hemp protein is tasty and good source of vegetable protein. It is a great way to add both fiber and protein to the diet. Add hemp protein to smoothies, bakery, cakes or sports nutrition blends. The hemp protein has a nutty flavour.

PEA

Pea protein powder 80%

PEA

PEA PROTEIN

While the origins of domesticated peas have not been definitely determined, the pea is one of the oldest cultivated crops. The wild plant is native to the Mediterranean region, and ancient remains dating to the late Neolithic Period have been found in the Middle East. European colonization introduced the crop to the New World and other regions throughout the globe.

Pea protein powder 80%

Pea protein powder is a concentrate of peas. Pea protein powder is a plant based protein powder that contains 80% of protein. Pea protein is a popular replacement for animal-based protein (Whey) in sports nutrition. We offer conventional and organic pea protein powder sourced from China.

PISUM SATIVUM

Country of China

Ingredients: Certified organic pea protein powder

Botanical name: Pisum sativum

Form: Off-white powder

Flavour: Mild

Harvesting season: May-June

Key features and benefits

- Certified organic, gluten-free, vegan, non-gmo, natural
- A complete protein with all amino acids except for methionine
- Easy digestion and fast absorption of fiber
- No added flavors, additives, sweeteners, stabilizers, oils or coatings

Pea protein powder is an excellent plant-based, grain-free option. Pea protein can be used as an ingredient in bakery or as a protein supplement in bars and shakes. Pea protein has a natural mild nutty taste and fluffy texture, than most other protein powders, so it blends in perfectly with other ingredients.

PUMPKIN

Pumpkin protein 65%, raw

PUMPKIN

PUMPKIN PROTEIN

Pumpkins are believed to have originated in North America. Seeds from related plants have been found in Mexico dating back to 7000 to 5500 B.C. and is known to be one of the oldest domesticated plants. The name pumpkin originated from the Greek word for “large melon” which is “pepon.”

Pumpkin protein 65%, raw

Pumpkin protein is obtained from pressing the whole toasted organic pumpkin seeds at low temperatures to keep its exceptional features. Then pressed into a grinder in order to make fine powder. Our 100% organic pumpkin protein powder (EU origin) consists from 65% of protein, 8-10% of oil, and about 10% of dietary fibers. Pumpkin protein is a non-dairy, vegan friendly, non-legume, nut-free, easy to digest source of protein. The pumpkin protein is made in our factory in the Netherlands and certified Organic.

CUCURBITA

Country of origin: EU

Ingredients: Certified organic pumpkin protein powder

Botanical name: Curcubita

Form: Medium green crumbly powder

Flavour: Natural nutty taste

Harvesting season: August-September

Key features and benefits

- Certified organic, gluten-free, vegan, non-gmo, natural
- High in fibre
- A source of magnesium, zinc and omega-3
- No added flavors, additives, sweeteners, stabilizers, oils or coatings

Add raw pumpkin seed protein powder to smoothies, salads, baby food, pet food, sport nutrition products or use as a baking ingredient. TIP ! Mix with hemp and sunflower proteins to improve the amino acid profile for a greater diversity in the product.

SUNFLOWER

Sunflower protein powder 53%, raw

SUNFLOWER SUNFLOWER PROTEIN

Sunflower was a common crop among American Indian tribes throughout North America. Evidence suggests that the plant was cultivated by American Indians in present-day Arizona and New Mexico about 3000 BC. Sunflower was used in many ways throughout the various American Indian tribes. Seed was ground or pounded into flour for cakes, mush or bread. Some tribes mixed the meal with other vegetables such as beans, squash, and corn. There are references of squeezing the oil from the seed and using the oil in making bread..

Sunflower protein powder 53%, raw

We offer a 100% organic sunflower protein powder. The peeled sunflower seeds are degreased and cold pressed. Subsequently, the carbohydrates are removed to achieve a high protein content up to 53%. Sunflower protein powder contains about 7 % fat and around 53% vegetable protein and about 23 % dietary fiber. Beside these, the product is also a rich source of minerals, fats, carbohydrates and other plant-based health benefits.

HELIANTHUS ANNUUS

Country of origin: EU

Ingredients: Certified organic sunflower protein powder

Botanical name: Helianthus ann

Form: Beige crumbly powder

Flavour: Aromatic

Harvesting season: October

Key features and benefits

- Certified organic, gluten-free, vegan, non-gmo, natural
- High in fibre
- Rich in Vitamin-E
- No added flavors, additives, sweeteners, stabilizers, oils or coatings

Our 100% organic sunflower protein powder is a great choice for vegans, vegetarians, professional and recreational athletes, people with high physical stress, lactose allergy and those who are looking for a plant protein source. Sunflower protein is great to add into the yogurt, muesli, smoothie, fruity or vegetable salads or just drink it as a protein shake.

WHEY

Whey protein powder 80%

WHEY

WHEY PROTEIN

Whey protein is derived from cow milk. This water-soluble milk protein is popular among athletes. It is a complete protein, meaning that it contains all of the amino acids that the human body requires from food. The body absorbs whey protein quickly and easily.

Whey protein powder 80%

We offer organic whey protein powder sourced from EU. Whey protein is one of the two main proteins that are derived from milk (the other being casein). Once collected, the whey goes through many different processes and eventually turns into the protein powder. Since whey protein comes from milk, it contains lactose, which is a milk sugar molecule and it is easily digested.

WHEY PROTEIN

Country of origin: EU

Ingredients: Certified Organic whey protein

Botanical name: Whey protein

Form: Light yellow

Flavour: Fresh, pure and typical whey

Harvesting season: Spring

Key features and benefits

- Certified organic, gluten-free, vegan, non-gmo, natural
- A complete high-quality protein
- A source of calcium and vitamin B
- No added flavors, additives, sweeteners, stabilizers, oils or coatings
